

Help me Eradicate World Hunger

Contributed by Jimmie Terrell
Saturday, 22 May 2010

A great company that has a mission to eradicate childhood starvation around the world, as well as create wealth

for the average person by allowing people to partner with them and share the wealth. TamPogo Free Home Business Feeling Ambitious? Earn \$50,000 with Tampogo by the end of 2010.

Tampogo is a free membership shopping website that connects online and offline savings with groundbreaking products and profit-sharing opportunities.

NO Sign-up Fees NO Website / Back Office Fees NO Membership Fees NO Required Autoships for Basic Membership NO Overpriced Products

In fact, products are priced at or below typical retail prices. Products that qualify you as "active" start under \$20. For that, you get your product and a free web store, you qualify for all sales commissions made through your store and organization, and you may qualify for profits earned on the global sales of Pure Chemistry products (see below).

Now let me show you how EXCITING this program is, because it's going places untouched by any company before now. Here are some highlights:

Tampogo's business partner (run by the same people) is Pure Chemistry, which has a number of EXCLUSIVE, high-demand products. No one will ever have a lower cost for these products than Tampogo. These include:

- * Night Cap, a GABA weight loss juice that helps the brain to release more of its stored up Human Growth Hormone to promote better sleep; fat burning; muscle building; more energy.
- * Botanical Buffet, a friendly-bacteria skin care line that does more to clear up acne, wrinkles, scars, and other skin problems than probably ANY product in the marketplace today -- including those available only by prescription!
- * Lawn & Garden products that stimulate microbes in the soil, growing plants more quickly and producing a greater yield, like more flowers and larger fruits.

Average treated strawberry (left) vs average untreated strawberry in simple, side-by-side test of 6 plants (3 of each).

* Home cleaning products -- all natural, non-toxic, and more effective than chemical cleaners, once again through microbial stimulation.

* Safe Teeth oral care products. If you don't already know it, toothpaste is poisonous to the entire body and damages your teeth. We have a product that is not only safe for the teeth, but also creates extremely healthy gums (once more, through the feeding of friendly bacteria), which safeguards health throughout the body. (We even have a teeth whitener based on this same science -- no chemicals!).

* Going "Beyond Green" -- Earth-friendly is a big deal these days, but too often such products are less effective. Botanical Buffet, the lawn & garden products, the home cleaning products, and the Safe Teeth products are all considered "Beyond Green." They're not just all-natural and safe for the earth, but they actually promote healthy life processes. And they're more effective than anything you've seen!

* Crystal Thin -- a brain signal weight loss product that you simply sprinkle on your food to lose weight. The brain knows that you're full more quickly, so you eat more appropriate meals and lose weight fast! (Like a next-generation Sensa(R) that costs less and works better.) This Monday and Tuesday Fox News will be airing a report they did about 4 ladies who were all overweight... not grossly obese... just over weight. They will be airing this report showing these ladies first exposure to Crystal Thin at an Italian Restaurant... and then their get together 3 weeks later, sharing their results. This report will be airing on all the Fox networks... and spread across the internet... and span the globe! it will also be featured on the Tampogo website: <http://www.tampogo.com/necktieman> .

* A healthy "Twinkie" product that 2 out of 3 people say taste better than Twinkies, yet they're healthier and can be made with nutritional perks in the "cream filling" -- things like caffeine, or protein, or vitamins and minerals, or antioxidants, or weight loss components. In short, anything they want. Can you imagine Twinkie supplements in place of health bars?

* The MD Line -- a whole line of nutritional products with medical-grade results for some of the world's most pressing

health issues. Includes products that reset the pancreas, or put on lean body mass faster than you've ever seen, or pull off belly fat, and much more.

These exclusive products will NOT just sell through TamPogo. They will sell on other websites and in retail settings ... for MORE than what TamPogo charges. This raises familiarity and shows people what a bargain TamPogo is when you show it to them. But more than that ... money from sales outside of TamPogo will be brought into a bonus pool for TamPogo leaders!

That means you can earn from sales made at the likes of Walgreens, GNC, mall kiosks, and even vending machines as a member of TamPogo! In fact, from stores around the globe.

TamPogo will give you the opportunity to earn when people in America buy insurance, or travel, or when diabetics check their blood sugar. (Not yet available. Insurance possibly available in May 2010.

TamPogo will give you the opportunity to earn when people use EXCLUSIVE software on their cell phones to save money at their local stores! (Not yet available.)

Plus, one of the "soul" perks is that every Fast Track product sold feeds a starving child for a week.

In short, with TamPogo, you can start a business with NO MONEY spent, and with a very small monthly investment that gets you an actual product. Products are priced right, and many set totally new standards of excellence in their respective niches. And as you can see, the potential to earn on exclusive opportunities is astounding.

RECOMMENDED:

There is nothing wrong with getting into the business with just a Fast Track product each month. Lots of money to be made in this way. But to qualify for profit sharing on all of the Pure Chemistry products, you invest a little more in a President's Circle package on autoship. These are some of their best wellness products and start at just \$45. This is HALF the cost of most juice, chocolate, and other home business companies. You must also have others on this kind of autoship and qualify with a certain number of points, because sharing profits on all their products is reserved for those who actually do some work. But it's not hard to qualify if you get onto that autoship from day one and share this concept with just a few other people who understand what it means to earn from global retail sales.

FOR BIG BUSINESS BUILDERS:

If you want to get your hands on more product at a better price in the beginning -- for personal use and product demonstrations -- you can buy a Presentation Package for \$299. Doing so permanently establishes you as a TamPogo Champion. This means that you can earn a \$100 Fast Start bonus on any Presentation Packages that you sell.

You do NOT need to do this when you first sign up for TamPogo. But until you're a Champion, you don't earn Fast Start bonuses. Still, this is never a required part of TamPogo.

Now make no mistake ... CEO Chuck Stebbins -- a former leader at Intermix, which owned MySpace before they sold it to News Corp. for \$580 million; one of the first people to run an internet store; and someone who's sold billions of dollars in supplements and skin care products both online and in retail stores -- is ideally qualified to help us sell products. Do me a favor and go to: <http://www.tampogo.com/necktieman> and sign up for FREE and let me know what you think even if you do not make a purchase. Please email me at: jtspecprod@excite.com Please email your critic. Thank you very much.
